Project Experience

- **Sports Event Management Website (2017)**
  A responsive website for managing sports events held in college was designed and hosted. This website provided the schedule of the upcoming matches and the result of previous matches. The data can be updated through admin portal after each match. Led a team of 4 and hosted the website successfully.
  Technologies used: MySQL, PHP, javascript, AJAX, HTML5, CSS3

- **Foodpop website for Food Recipes (2017)**
  A blogging website was developed for sharing traditional food recipes. The recipes can be uploaded and edited from user login. Only recipes approved by admin are displayed in search. Successfully led a team of 6 members.
  Technologies used: MySQL, PHP, javascript, HTML, CSS

- **Library Database Management System (2016)**
  Developed a website for college library database. The information and number copies of books available are displayed on the website. The admin can increase or decrease the number of copies whenever a book is returned or issued from the library.
  Technologies used: MySQL, PHP, javascript, HTML, CSS

- **Employee Records Management System (2016)**
  Project internship on Java(OCJP) conducted from June 2016 to July 2016. The database for employee records can be stored and manipulated as per the requirement of organization.
  Technologies used: MySQL, JDBC

- **Intense Fit Website (2016)**
  Designed and hosted an informative fitness website using website creation tool in two days. Led a team of 3 members.
  Technologies used: Wordpress

Technical Expertise

- **Programming Skills** : Java, C, PHP
- **Database Skills** : Microsoft SQL, MySQL, JDBC
- **Technologies** : HTML5, CSS3, Javascript
- **Concepts** : Java, Data Structures, DBMS
